

FARHAT TANWIR KHAN RAJE

 farhatkhanraje@gmail.com |  +91 86248 37786

 Nashik, Maharashtra, India

Summary:

I am currently pursuing the third year of Computer Engineering as a Bachelor of Engineering. I have a growing interest in programming, web development, and computer systems. Through my coursework and personal projects, I'm actively developing my technical skills. I'm now looking for internship or entry-level opportunities where I can apply what I've learned so far, gain practical experience, and continue building my career in the tech industry.

Education

- **Bachelor of Engineering (BE) in Computer Engineering**
LoGMIEER, Nashik, Maharashtra,
July 2023 to Present.
- **Higher Secondary Certificate (HSC)**
Vainateya Junior college of Science, Nashik, Maharashtra,
2022 Passing Year.
- **Secondary School Certificate (SSC)**
Bhimashankar English Medium School, Nashik, Maharashtra
2020 Passing Year.

Technical Skills

- **Programming Languages:** Proficient in C and C++; working knowledge of Java and Python.
- **Web Development:** HTML5, CSS3, JavaScript, basic knowledge of responsive design principles.
- **Database Management:** Familiar with MySQL, SQLite, basic understanding of database normalization and SQL queries.
- **Software Tools & IDEs:** Visual Studio Code, Git & GitHub for version control.
- **Operating Systems:** Hands-on experience with Windows and Linux (Ubuntu) environments.
- **Computer Fundamentals:** Strong grasp of Data Structures, Algorithms, Computer Networks, Operating Systems, and Object-Oriented Programming (OOP).
- **Other Skills:** Basic understanding of software development lifecycle (SDLC), debugging, and testing techniques.

Strengths:

- Quick learner with a strong ability to adapt to new technologies and development environments.
- Effective team player with experience collaborating on academic and project-based tasks.
- Solid analytical and problem-solving skills developed through coursework in algorithms and system design.
- Good communication skills, both verbal and written, to clearly convey technical concepts.
- Strong time management and organizational skills to meet deadlines and manage multiple tasks efficiently.
- Curious and self-motivated, with a passion for continuous learning and improvement in the tech domain.

Academic Projects:

- **Construction Estimator:**
Developed a simple tool to calculate the total estimated cost of construction materials based on user input. The project aimed to help users get a quick cost estimate by entering required quantities and prices of construction products.
- **Portfolio:**
A personal portfolio showcasing my projects, skills, and experience in web development. It highlights my ability to build responsive websites using modern technologies and demonstrates my problem-solving and design capabilities.
- **Login/Signup System:**
Developed a user authentication system with login and signup functionality using HTML, CSS, and JavaScript, enabling users to securely create accounts and access protected content
- **Ayra Infinity Academy – E-Learning Platform (In Progress):**
Developing a full-stack e-learning website with secure login/signup system, course enrollment, module-based learning, quizzes, and automated certificate generation. Focused on responsive UI and user-friendly experience

Certifications:

- **Certificate in Python Programming** – Amity online
- **Data Science** - Eduonix Online Learning

Languages:

- English (Fluent)
- Hindi (Fluent)

Hobbies and Interests:

- Exploring new technologies
- Reading tech blogs
- Participating in coding contests
